Water Filtration

Benefits of Water Filtration:

- Clean, great-tasting water
- Filters chemicals, bad taste & odour
- Kills up to 99.9% of bacteria
- Protects appliances by reducing scale
- Gentle on skin & hair
- Peace of mind with cleaner, safer water

Under Sink

Compact and reliable, Puretec under-sink filters deliver high-performance filtration for cleaner, better-tasting drinking water. Backed by a 10-year warranty.

Whole House

Suitable for mains and rainwater supply, filter all household water to reduce sediment, chlorine and other chemicals, improving taste and odour while reducing bacteria and parasites.

Caravan / RV

The ultimate solution to safe filtered water, no matter how remote you are. Connects to standard hose fittings for quick and easy installation.

Water Test Kits

Do you know what's in your water? Simply take a water sample, use the prepaid shipping back to return to Puretec for your analysis and recommended solutions.

Filter Tap Range

From single filter taps to 3-way mixer taps supplying hot, cold and filtered water in five stylish colours, with the SPARQ series offering instant sparkling, ambient and chilled water.

Replacement Filters

Full selection of replacement filters to suit all models. Maintenance kits. Plus free replacement filter reminder service for NCP+W customers
